CLASS OF THE MONTH

iPad and iPhone

In mid 2017 Janice Boswell and Jenny Loring started an iPad and iPhone class at the Lalor Library as there was no Apple device classes available within the Whittlesea U3A. They were finding that the members had to be totally dependent on their children. They started with 15 students, it proved to be very popular. In 2018 we moved into Peter Lalor Campus with 40 students on our books, the numbers started to increase with an overload of members wanting to learn. We now run 2 classes on a Wednesday; Morning and Afternoon. The class consists of learning the devices and how to access internet, photos and Social Media.
