Models are made by folding hundreds of small triangles from different colours of paper and interlocking them together. Class open for all members who are keen on this folding paper art and challenge their patience.

HISTORY OF 3D ORIGAMI: According to documents issued in 2006 In 1993, a group of 286 Chinese men and women tried to enter the US illegally on a large cargo ship known as Golden Venture. There were 10 people drowned in their escape attempt. When the survivors reached the US, they were taken into custody by the Immigration and Naturalization Service (INS) and detained while they applied for the right of asylum. Many ended up the year there for the processing of their cases. To help pass the time, they began making elaborate paper sculptures for fundraising and to be given as gifts to the people who were working to help the refugees gain their freedom. The models created by the Golden Venture refugees were shown in a 2001 exhibit title 'Fly to Freedom' organized by the Museum of Chinese in New York City, America.
